SPECIFICATIONS

Automac machine for labeling on ampoules "LM-15"

Servo

Productivity: 30-180 labels per minute

Working direction: Left or right

Conveyor speed: ≤40 meters per minute

Internal diameter of label roll: 76 mm

Outer diameter of label roll: 350 mm

Size of the label: width 15-100 mm, length 15-80 mm

Air consumption: 5 kg / cm²

Marking accuracy: ± 1.0 mm (taking into account the roughness of the plane)

Total engine power: 600 W

Power supply: 220V, 50HZ

Machine size: 1800mm x 800mm x 1300mm

Overall dimensions: 2000mm x 800mm x 1300mm

Weight: 260 kg

Shipping Weight: 320 kg

ADDITIONAL INFORMATION

A control system is used through the LCD screen with high stability and extremely low failure rate. The main system is controlled by a 10-inch touchscreen, a simple visual interface in English using the fault display function. German LEUZE tags are installed, automac label verification stations, stable and convenient, without high operator requirements. Servo control with a powerful servo amplifier American AB, stable with high response speed. The cardboard boxes are moved to the device for separation, all boxes retain a certain distance and are moved along the center line. The servo motor driver drives the motor to feed the label. The device is brushed with labels on the box at two angles for beer adhesion. Marking. Photoelectronic elements of control, accuracy of labeling, the function "no object - stop", automac control of the missing label. The main part of the labeling machine is made of stainless steel SUS304. Ability to use different sizes of labels. The system of pressing the label against the surface of the bottle helps to avoid air bubbles. Feeding labels from the roll with a stepper motor. You can add the print function series, numbers and production dates (if necessary). Equipment and materials which are used in the manufacture of stainless steel and high-alloyed alloys meet the requirements of GMP production.

PRODUCTION TIME **30-40 DAYS**

ESTIMATED DELIVERY TIME **30-40 DAYS**

PRICE **11864,41 USD**

VAT **2135,59 USD**

VALUE 14000.00 USD

Payment is made in rubles to the account in Moscow at the rate of the RF Central Bank

OUR SERVICES FOR CLIENTS:

1) TRAINING TECHNOLOGIES OF LABELING.

We can train you on our equipment before buying. Testing of materials. We provide consultations on the organization of labeling, with a full range of additional equipment and consumables.

2) WE COMPLETE PHARMACEUTICAL AND CONFECTIONERY PRODUCTION.

We have automatic and semi-automatic labeling machines in Russia, which we provide to our customers. You can always contact us with your ideas and requests.

3) SUPPLY OF EQUIPMENT FOR SELF-ADHERING LABELS.

The products are fully comply with the new GMP requirements. The release of labeling machines is accompanied by strict quality control, verification of all documentation, well-organized after-sales equipment equipment.

4) SPARE PARTS SUPPLY

The manufacturer can also offer a model of labeling machines, based on the goals and objectives of the customer. We will assist in the maintenance and repair of any packaging equipment. Service center in Russia for the CIS countries.
