## ADDITIONAL INFORMATION

Possibility of placing up to 5 screens (4 screens) with standard seng. The screen grid can be changed according to the requests. Quiet vibraon and easy maintenance. All parts in contact with powders are made of SUS316L stainless steel. Before starnq work, place the vibrang screen on a at and sturdy surface so that it works smoothly and eciently. To ensure the safety of the user, the power supply must be grounded.

**PRODUCTION TIME** 30-40 DAYS  
**ESTIMATED DELIVERY TIME** 30-40 DAYS

**PRICE** 4661,02 USD  
**VAT** 838,98 USD

**VALUE 5500.00 USD**

Payment is made in rubles to the account in Moscow at the rate of the RF Cental Bank

### OUR SERVICES FOR CLIENTS:

#### 1) TRAINING WORK WITH VIBRATING SIEVE

To all our customers who have purchased laboratory powder separators, we provide literature on the basis of the separaon of powders into fracons. We carry out consultaons by phone and by correspondence, we help to solve arising diculties at manufacture on our equipment. We supply spare parts and consumables. We render services in the help on realizaon of the vibraonal equipment, which was in use.

#### 2) WE COMPLETE PRODUCTION AND LABORATORY.

We have a large assortment of additional equipment for laboratory separaon. At the request of the client, we select a vibraon sieve model, powder siing machines, equipment for controlling the owability of powders, machines for separang powders into fracons, laboratory equipment.

#### 3) SPARE PARTS SUPPLY FOR VIBROSIT.

We cooperate with manufacturers of automac and laboratory models of vibrang screens, we are engaged in the supply of spare parts for equipment for the separaon of powders into fracons purchased in our company
