Pneumac piston dispenser for creams and ointments WW-500

DESCRIPTION

Table semi-automac machine for pouring and packing ointments and creams of piston type with pneumac drive. Dosing of the packing: from 1000 to 5000 ml. Weight 60 kg. This model uses a pneumac piston pump dispenser and control panel. Automac, economical and easy to operate the machine is used in the medical, food and chemical industries. We provide a full range of services: installaon, training, start-up, repair.

Instrucon for use in English and Russian. Complies with the GMP standard. We provide detailed instrucons for seng up this model of the machine for dosing creams and ointments. Before shipment, the machine is tested in producon. Completeness and working capacity is guaranteed. We maintain a stock of parts and consumables in the warehouse. Price is indicated taking into account customs payments in Russia and delivery to the city of the client.

MANUFACTURER - CHINA

SPECIFICATIONS

Pneumac piston dispenser creams and ointments "WW-500"

Type: pneumac reciprocating feeder

Productivity: 5 to 20 doses per minute

Dosage of packing: from 1000 to 5000 ml

Filling accuracy: $\pm 1\%$

Applicable tolerance (m³ / min): ≥ 0.1

Air pressure: 0,6-0,8 MPa

Power consumption: 150 W

Power supply: 220V, 50Hz

Overall dimensions: 1200mm x 340mm x 480mm

Machine weight: 60 kg

Weight with packing: 70 kg

ADDITIONAL INFORMATION

Compact design, ideal for use in confined spaces, laboratory and pharmaceutical conditions. The body and parts are made of SUS 304. Semi-automatic filling machine of piston type. Horizontal machine for filling liquid doses from 1000 ml to 5000 ml. Easy to operate, pneumac part uses pneumac components Germany. The filling is controlled by a solenoid valve, with high filling accuracy. The filling volume and feed rate can be adjusted as desired. A special three-way non-return valve system is used for accuracy of filling. Material contact parts can be customized SUS316. It is possible to make the boom seal on the tank filler to avoid leakage. The diameter of the filling nozzle can be replaced at the request of the customer. All parts in contact with the material are made of stainless steel 316. The filling volume and speed can be adjusted, while maintaining high accuracy of dosing. The ointment, gel or viscous homogeneous substance is loaded into the large funnel, using the system of sensors, the operator manually adjusts the amount of ointment of a single dose. Check the filling volume or weight. Further, a compressor is connected, which causes the piston to move by compressed air pressure. The start / stop control of the dose is possible from the foot pedal. The operator brings the container to the neck, pushes the pedal and the machine delivers the dose of the ointment to the jar, then the operator inserts a new container. It is possible to use this machine with the transporter and the connection of the photo sensor.

PRODUCTION TIME **30-40 DAYS**

ESTIMATED DELIVERY TIME **30-40 DAYS**

PRICE **5084,75 USD**

VAT **915,25 USD**

VALUE 6000.00 USD

Payment is made in rubles to the account in Moscow at the rate of the RF Central Bank

OUR SERVICES FOR CLIENTS:

1) TRAINING OF TECHNOLOGY OF DOSAGE OF CREAMS AND MAZES.

All our customers who purchased equipment, we provide literature on the basics of dosing cream and ointments in vials. We carry out consultations by phone and by correspondence, we help to solve arising difficulties at manufacture on our equipment. We supply spare parts and consumables. We render services in the help on realization of cream-filling equipment used.

2) COMPLETE PRODUCTION OF COSMETICS AND FOODSTUFFS.

We have a wide range of additional equipment for dosing production. At the request of the client we will select a model of dispensers of cream and ointments, homogenizers, equipment for packing creams in tubes, filling and packing equipment for filling bottles.

3) SPARE PARTS SUPPLY

We cooperate with manufacturers of automatic and semi-automatic dispensers and we supply spare parts for any model of dispensers of ointments, gels, creams, pastes bought in our company.

Owner and supervisor
