ADDITIONAL INFORMATION

The evenness of polishing hard gelatin capsules with powder is ensured by using a long rotating brush with plastic bristles in the design of the polishing machine casing. The surface of the capsules after brushing is completely clean and smooth. All the dust is drawn by a vacuum cleaner, which comes complete with a polisher capsule. We advise all customers to immediately purchase an additional spare brush. The experience of our customers has shown that this polisher is not suitable for removing dust from tablets. The brush nap is very soft and erases the pills very much.

PRODUCTION TIME 30-40 DAYS
ESTIMATED DELIVERY TIME 30-40 DAYS

PRICE 3813,56 USD
VAT 686,44 USD

VALUE 4500.00 USD

Payment is made in rubles to the account in Moscow at the rate of the RF Central Bank

OUR SERVICE AND SERVICES FOR CUSTOMERS:

1) TRAINING OF CAPSULATION TECHNOLOGY.

To all our customers who purchased equipment, we provide literature on the basics of encapsulation of powders. We carry out consultations by phone and by correspondence, we help to solve arising difficulties at manufacture on our equipment. We supply spare parts and consumables. We render services in the help on realization of the capsule equipment used.

2) COMPLETE PRODUCTION CAPSULES.

We have a wide range of additional equipment for capsule production. Upon customer's request, we will select a model of capsule filling equipment, granulators, powder mixers, dust removal equipment and capsule polishers, printers for printing logos on capsules, filling and packing equipment for gelatin capsules.

3) SPARE PARTS SUPPLY

We cooperate with manufacturers of automatic and semiautomatic capsulators and we are engaged in the supply of spare parts for any model of capsule machines purchased in our company.
