Powder dispenser in plastic bottles PR-15

DESCRIPTION

Automatic equipment for metered packing of powders and granules in plastic bottles and capping caps. Automatic supply of empty bottles and lids from bins. The dosage is adjusted by screw dispensers of powders. The capacity is 1800 bottles per hour. Weight 550 kg. Made of high quality stainless steel.

We provide detailed instructions for setting up equipment for dosing and capping. Before sending the machine to the customer, they are checked and tested in production. Completeness and working capacity is guaranteed. We maintain a stock of parts and consumables in the warehouse. Price is indicated with the delivery to the city of the client.

SPECIFICATIONS

Powder dispenser in plastic bores "PR-15"
 Quantity of filler: 2, 7, 25 grams
 Productivity: 1800 bores per hour
 Filling accuracy: $\leq \pm 2\%$
 Filling method: screw filling
 Power Source: AC380V / 50Hz
 Power: 2,4 kW
 Overall dimensions: 2000mm x 1000mm x 1800mm
 Weight: 550 kg
 Shipping Weight: 800 kg

ADDITIONAL INFORMATION

Empty plastic bores are fed to the rotating disc on the conveyor belt. The cells of the rotating disk move the vials to the unit for dispensing powders or granules. The machine simultaneously fills two bottles of powder. Optical sensors monitor the presence of vials. If there is no vial - there is no supply of powder. From the storage bin, the lids are fed to the capping assembly, where they are combined with the vials. Screwing of caps occurs at mechanical clamping of vials rotating heads. Ready bores are taken away by an additional conveyor belt. Great importance is attached to the stability of vials. To make a decision to buy this equipment, we recommend sending pictures and sizes of bores and lids.

PRODUCTION TIME	30-40 DAYS
ESTIMATED DELIVERY TIME	30-40 DAYS

PRICE	26271,19 USD
VAT	4728,81 USD

VALUE 31000.00 USD

OUR SERVICES FOR CLIENTS:

1) TRAINING WORK WITH POWDERING MACHINES.

To all our customers who purchased equipment, we provide literature on the basics of dosing powders into bores. We carry out consultations by phone and by correspondence, we help to solve arising difficulties at manufacture on our equipment. We supply spare parts and consumables. We provide services in the implementation of powder dispensers in bores of used.

2) COMPLETE MANUFACTURE OF POWDER FILM.

We have a wide range of additional equipment for the preparation of powder mixtures. At the request of the client we will select a model of equipment for mixing powders, granulators, machines for washing and sterilizing bores, labeling equipment.

3) SPARE PARTS SUPPLY

We cooperate with manufacturers of automatic and semi-automatic machines for packing powders in bores, hand-held desktop machines for granule dispensers and we are engaged in the supply of spare parts for packing equipment in bores purchased from our company.

Payment is made in rubles to the account in Moscow
 at the rate of the RF Central Bank
