Ultrasonic machine for sealing plastic tubes HX-3

DESCRIPTION

Semi-automatic ultrasonic machine for sealing the edges of plastic tubes in the pharmaceutical, food and cosmetic industries. The production capacity is up to 8 - 15 tubes per minute. The diameter of the tubes used is 5-50 mm. The maximum height of tubes is 200 mm. Ideal for research laboratories and pilot production. We provide a full range of services: installation, training, start-up, repair. Simple mechanical design. Instruction for use in English and Russian.

Complies with the GMP standard. We provide detailed instructions for setting up this machine for sealing the edges of tubes. Before sending the machine for sealing plastic tubes are tested in production. Completeness and working capacity is guaranteed. We maintain a stock of parts and consumables in the warehouse. Price is indicated taking into account customs payments in Russia and delivery to the city of the client.

MANUFACTURER - CHINA

SPECIFICATIONS

Ultrasonic machine for sealing plastic tubes "HX-3"
 Productivity: 8-15 tubes per minute
 Tube diameters: 5 to 50 mm
 Tube type: plastic
 Maximum tube height: 200 mm
 Ultrasound frequency: 20 kHz
 Engine power: 2,2 kW, 220V, 50 Hz
 Air consumption: 0,6 - 0,8 MPa
 Overall dimensions: 560 mm x 537 mm x 880 mm
 Weight: 120 kg
 Weight with packing: 150 kg

ADDITIONAL INFORMATION

Desktop semiautomatic machine for ultrasonic sealing of the edge of plastic tubes with creams and ointments. Used in the manufacture of cosmetics, medicines, food. The customer must provide the dimensions of the tubes. The manufacturer makes plastic molds to fit the customer's tubes. One machine uses three exchangeable forms per one tube size. If necessary, you can order sets of forms for all the tube sizes of interest. Clamp the edge of the tube is produced by pneumatic drive. The height of the pressure lips is adjusted to the height of the tube.

PRODUCTION TIME 30-40 DAYS

ESTIMATED DELIVERY TIME 30-40 DAYS

PRICE 6949,15 USD

VAT 1250,85 USD

VALUE 8200.00 USD

Payment is made in rubles to the account in Moscow at the rate of the RF Central Bank

OUR SERVICES FOR CLIENTS:

1) TRAINING TO THE TECHNOLOGIES OF TUBING.

We can train you on our equipment before buying. Testing of materials. We provide consultations on the organization of the production of plastic tubes, with a full range of additional equipment and consumables.

2) COMPLETE LABORATORIES FOR PHARMACEUTICAL PRODUCTION.

We have ultrasonic machines for sealing plastic tubes for the production of pilot batches in Russia, which we provide to our customers. You can always contact us with your ideas and requests. Currently, the manufacturer of machines for edge sealing tubes can offer equipment for automatic and semi-automatic use.

3) DELIVERY OF EQUIPMENT FOR WELDING PLASTIC TUBES.

The products fully comply with the new GMP requirements. The release of machines for sealing tubes is accompanied by strict quality control, verification of all documentation, well-organized after-sales service of equipment.

4) SPARE PARTS SUPPLY

The manufacturer can also offer a machine model for tube sealing, based on the customer's goals and objectives. We will assist in the maintenance and repair of any equipment for filling and sealing tubes. Service center in Russia for the CIS countries.
