Washing machine for ampoules and vials SYB-10

DESCRIPTION

Automac compact machine for washing plastic and glass penicillin bottles, and ampoules, for filling and sealing lines for ampoules. The machine is made of stainless steel for washing and drying glass ampoules and penicillin bottles, and other types of bottles. The capacity is 15,000 bottles per hour. Weight 180 kg. Made of high quality stainless steel.

We provide detailed instructions for setting up equipment for washing bottles and bottles. Before sending the machine to the customer, they are checked and tested in production. Compressor with compressed air is additionally required. Completeness and working capacity is guaranteed. We maintain a stock of parts and consumables in the warehouse. Price is indicated with the delivery to the city of the client.

ADDITIONAL INFORMATION

The machine has four receiving units, in which containers with ampoules or vials are installed. The lid of the washing machine is sealed. Inside there are groups of injectors that supply water under pressure. The speed of rotation is adjustable. After the washing process, ampoules or vials are dried by centrifugal rotation of containers with ampoules and vials. The quality of the sink is GMP compliant. The machine effectively cleans the bore inside and outside of the stains and blows off water droplets, which provides favorable conditions for the drying process. All parts are made of food grade stainless steel.

PRODUCTION TIME 30-40 DAYS
ESTIMATED DELIVERY TIME 30-40 DAYS

PRICE 7627,12 USD
VAT 1372,88 USD

VALUE 9000.00 USD

OUR SERVICES FOR CLIENTS:

- 1) **TRAINING WORK WITH VESSEL WASHING MACHINES AND AMPUL.**
 All our customers who purchased equipment, we provide literature on the basics of washing bores and ampoules in pharmaceutical production. We carry out consultations by phone and by correspondence, we help to solve arising difficulties at manufacture on our equipment. We supply spare parts and consumables. We render services in the help on realization of the equipment of pouring out and ykynopku second-hand.
- 2) **WE ACCESS THE MACHINES OF WASHING.**
 We have a wide range of additional equipment for pre-washing, rinsing, sterilizing glass and plastic bores and ampoules. At the request of the client we will select the filling and capping model, equipment for mixing liquids, labeling equipment.
- 3) **SPARE PARTS SUPPLY**
 We cooperate with manufacturers of automatic and semi-automatic washing and sterilizing machines, hand-held desktop filling machines and we are engaged in the supply of spare parts for filling and capping equipment purchased in our company.

Payment is made in rubles to the account in Moscow at the rate of the RF Central Bank
